

Automatic Standby Generators

25, 35, 45 kW

A Honeywell generator changes everything. Automatically. A power outage will have little effect on the things that matter most to you. Home, family, business—this no-worry solution provides the power and assurance for you to feel confident they are protected everyday, whether you are home or away.

Honeywell

Automatic Standby Generators 25, 35, 45 kW

A Honeywell automatic standby generator seamlessly backs up the circuits you choose during a power outage. It automatically starts within seconds of detecting power loss, and runs on the home's existing natural gas or LP fuel supply. Choose a backup option from essential circuit, managed whole-house or complete whole-house coverage.

FEATURES

Remote monitoring included:

Remote monitoring is standard on 10-45 kW residential Honeywell automatic backup generators. Observe generator status, set operation parameters and receive maintenance information—all from the comfort of your home.

PrecisionPower™ utility quality power:

Superior harmonics and sine wave form produce less than 5% Total Harmonic Distortion for utility quality power. This allows confident operation of sensitive electronic equipment and micro-chip based appliances, such as variable speed HVAC.

Quiet Operation:

One of the quietest units available. Sound-reducing foam panels buffer noise levels, and the weekly patented WhisperCheck™ self-test mode is even quieter than normal operation.

An exterior that withstands the elements

In premium aluminum with RhinoCoat™ finish, the corrosion resistant enclosure is durable and long lasting, a necessity especially in coastal locations.

Transfer Switch Options:

Complete the generator system with a Honeywell Sync Transfer Switch™. Utilizing digital load management, it allows for coverage of two air conditioners without additional components.

SPECIFICATIONS

- Generac commercial engines feature a full pressure lubrication system with low oil and high temperature shutdowns
- Factory set for natural gas, easily converts to liquid propane in the field
- 25 kW and 45 kW approved for 50 state sale (45 kW requires specified catalyst for CA/MA)
- 35 kW not for sale in CA/MA

Sync™ Controller

- Manual/auto/off switch
- Programmable seven day exerciser
- Smart battery charger
- Utility & generator voltage sensing
- Utility interrupt delay
- Engine warm-up & cool-down
